Jan Kavčič is 17 years old and he lives in Klanec. He is a third year student at GIMNAZIJA Koper. He was born on 11th November 1996. Jan has got a step-sister. He hasn't got a pet and he doesn't play any sports or instruments.

Jan is quite tall and thin. He has got short brown hair and deep brown eyes. His eyes are the thing he most likes about himself. The thing he most dislikes about his appearance is his hair.

He thinks that he is very lazy; every day he spends hours playing FIFA on TV, which is also well supported by his motto "Why doing today something you can do tomorrow?" But he has got big aspirations: he wants to become a DJ and play in front of millions of people. He would like to be remembered as a legend.

Jan was really happy when he received a motorcycle, and he always carries with him his mobile phone to be available at any time.

He associates his life with all colours, he thinks that the rainbow is his life - colour! His favorite smell is the smell of bread at the bakery early in the morning. I think he is an intelligent boy because he says that life has taught him that we shouldn't be too intelligent.

I'm glad to have met Jan, because he is really friendly. I can't wait to see him and Veronica again!
